

Fewer steps, more secure

**SECURE
CITIZEN**

Own your identity

Protect your business from fraudsters with seamless biometric authentication.

Verifying the identity of customers and staff can be a time-consuming and frustrating process. One that's always vulnerable to fraud.

Secure Citizen's voice, facial and fingerprint biometric technology lets you onboard and verify people quickly and cost effectively.

Our solution integrates seamlessly with any digital onboarding technology, so none of your digital transformation spend will be wasted. The design is modular, so you can choose individual biometric modalities or the full suite.

The benefits of becoming a Secure Citizen are huge:

Access to SA's biggest digitally-verified database

Fast customer, vendor or employee onboarding

Align business strategy and transformation with your risk officer's requirements

Easily track who's been verified, lowering identity fraud risk

Simplify your regulatory compliance

Big cost savings and efficiencies

Save time and focus on your business' core duties

And did we mention, no more security questions?

That's a reason to go biometric all on its own!

Contact **Secure Citizen** today to find out how we can protect your business and give your customers a much faster, more streamlined experience.
